SHRUSHTI ITGAMPALLI

Cybersecurity Engineering Student | Aspiring Security Analyst | Technology Enthusiast

Email: shrishtiitgampalli@gmail.com | GitHub: https://github.com/Shrishti-nova
LinkedIn: https://www.linkedin.com/in/shrishti-itgampalli-669bb144a/ | Bidar, Karnataka, India
Guru Nanak Dev Engineering College, Bidar, Karnataka

PROFESSIONAL OBJECTIVE

"Exploring Cybersecurity, AI, IoT and Blockchain to Build a Smarter and Safer Digital Future."
Passionate Computer Science Engineering student specializing in Cybersecurity at GNDEC Bidar, dedicated to understanding digital system architectures, uncovering vulnerabilities, and building robust, defensive solutions.

EDUCATION

Guru Nanak Dev Engineering College, Bidar, Karnataka
Degree: Bachelor of Engineering (B.E.) in Computer Science Engineering - Cybersecurity
Academic Duration: 2023 - 2027 (Undergraduate)
Relevant Coursework: Cybersecurity Fundamentals, Computer Networks, Operating Systems, Data Structures, DBMS, OOP

TECHNICAL SKILLS

Programming Languages: C, Python, JavaScript
Web Development: HTML, CSS, JavaScript (Client-side logic and interface design)
Cybersecurity: Cybersecurity Fundamentals, Network Security Fundamentals, Ethical Hacking Concepts, Information Security
Tools and Environments: Git, GitHub, Linux (Command line and permissions), VS Code
Emerging Technologies: Artificial Intelligence (AI), Machine Learning (ML), Internet of Things (IoT), Blockchain

PROPOSED INNOVATIONS AND RESEARCH PROJECTS (PLANNED / IN DESIGN)

1. **AI-Based Phishing Detection System**
   Machine Learning model analyzing suspicious emails, redirect chains, and domain spoofing in real time.
2. **IoT-Based Smart Security System**
   Physical and digital intrusion monitoring combining microcontrollers, encrypted sensor feeds, and secure MQTT.
3. **Blockchain-Based Secure Document Verification**
   Decentralized academic credential audit platform utilizing SHA-256 cryptographic hashing and immutable ledgers.
4. **Password Strength Analyzer**
   Cryptographic entropy evaluation tool assessing passphrase resilience against dictionary attacks and NIST metrics.
5. **Network Traffic Analysis Dashboard**
   Live packet telemetry inspection engine monitoring protocols (TCP/UDP/ICMP) and reconnaissance port sweep scans.
6. **Secure Login Authentication System**
   Hardened auth service featuring salted bcrypt password hashing, TOTP Two-Factor Authentication, and rate limiting.

LEARNING JOURNEY

Active Specialization Tracks: C, Python, Cybersecurity Fundamentals, Linux, Computer Networks, AI, IoT, Blockchain
